WHAT MAKES THIS CONFERENCE DIFFERENT ?

Most conferences discuss Artificial Intelligence. TELEMEDICON trains you to use it.

- Work with Real Clinical AI Tools
- Understand Implementation Workflows
- Evaluate Safety & Reliability
- Build AI Adoption Strategies
- Learn Specialty-Specific Applications
- Connect with Deployment-Ready Vendors

HANDS-ON CLINICAL AI LABS

Participants will work directly with real tools:

- AI Consultation Assistants
- Predictive Dashboards
- Imaging Interpretation Systems
- Remote Monitoring Platforms
- Workflow Automation Tools

Learn by doing - not just listening.

SPECIALITY APPLICATIONS

AI use-cases across :

- Primary Care
- Pediatrics
- Obstetrics & Gynecology
- Cardiology, Radiology, Surgery
- Diabetes & Endocrinology & Mental Health

Each specialty track focuses on **real implementation scenarios**.

HANDS-ON TRAINING

Interactive labs allow participants to :

- Use AI clinical assistants
- Interpret predictive analytics
- Evaluate imaging AI outputs
- Design AI-enabled care pathways

CONFERENCE OBJECTIVES

- Enable safe and effective clinical AI adoption
- Demonstrate real implementation workflows
- Train healthcare professionals in practical usage
- Connect clinicians with deployable technologies
- Establish governance and safety frameworks

WHY TO ATTEND TELEMEDICON 2026 ?

Network with Industry Leaders
